PROVO

Deep Stretch

Relax Hamstring

Enhance flexibility by stretching the muscles at the back of the thighs.

Stretches in a reclined position to alleviate the gravitational pressure of standing stretches, instead of the single, non-comprehensive standing stretching after leg exercises.

PNF Stretch

Combine lower limb relaxation with muscle movement.

Relax Piriformis

Stretching the muscles at the back of the hips to build curves.

Stretch the back of the thighs/hips soothe fatigue from prolonged sitting and standing.

Help enhance the flexibility of the waist and hips, improve exercise recovery effects and shape the waist and hip muscles during muscle recovery periods.

Relax & Rejuvenate

Energize

Apply pressure to fatigue points on the body and clear leg meridians, promote lower limb vitality.

Relax the waist, promote lower limb vitality recovery, increase massage movements, and help clearing meridians.

Refresh

Enhance flexibility in the front of the Thighs; Promote lower limb strength recovery and relax the waist.

Twist and Stretch

Relax the sides of the waist and strengthen lateral flexibility.

Cycling Mode

Simulates cycling movements, relaxes knees and hip joints.

Engage key leg muscles through gentle cycling exercises.

Enjoy Your Ride, Unwind Your Mind

First Cycling Massage Chair in the Industry

Simulates cycling movements, relaxes knees and hip joints and engages in comprehensive thigh muscle movements.

Embark on a journey of health and comfort.

Dynamic Kneading Massage 76 Wrap-Around Airbags

Enjoy a full-body kneading massage with 76 airbags covering shoulders, back, waist, arms, hips, legs, and feet. Precise and even force for a broader massage range.

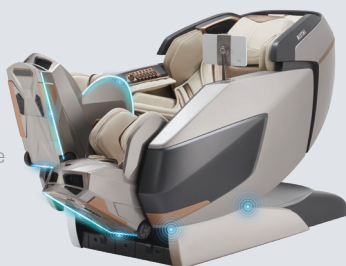

Comprehensive Waist & Leg & Foot Therapy

38 sets of airbags gently knead and press your waist, legs, and feet. Three-row foot rollers provide a thorough scraping therapy, while the carbon fiber heating keeps your legs and feet comfortably warm.

Safety Protections Anti-Pinch in Four Areas

Equipped with smart anti-pinch technology in four areas—lower legs, armrest, back cover, and seat frame—the chair immediately stops running when it detects children, pets, or any objects approaching, ensuring safety and peace of mind.
