More Professional Massage Chairs

4D Temp-Sensing Mechanism

Warmth spreads throughout the entire body

Delivers heat to massage heads via a built-in module, with heat coverage moving with the 4D mechanism for full-body warmth. 82mm max reach enables deep-tissue heat massage to ease fatigue. Plus lumbar/back & leg/foot heating—perfect for warm-body relief in southern regions without heating this fall/winter.

Independent leg exercise programs

Stretching core muscles

Compared to traditional massage chairs that mainly focus on full-body stretching, this chair specifically emphasizes leg stretching, aiding in sports recovery and assistance.

Sports Refresh

Relax Hamstring

Enhance flexibility by stretching the muscles at the back of the thighs.

PNF Stretch

Combine lower limb relaxation with muscle movement.

Relax Iliopsoas

Static stretching of the hip and thigh muscles at the back.

Relax Piriformis

Stretching the muscles at the back of the hips to build curves.

Twist and Stretch

Relax the sides of the waist and strengthen lateral flexibility.

Exercises Assistance

Energize

Apply pressure to fatigue points on the body and clear leg meridians, promote lower limb vitality.

Refresh

Enhance flexibility in the front of the thighs; Promote lower limb strength recovery & relax the waist.

Cycling Mode

Simulates cycling movements, relaxes knees and hip joints.
